<sup>i</sup> These logos represent, in part, organizations to which Blake Leath & Leath Group have provided consulting services or to which Blake Leath & Leath Learning have provided intellectual property. In addition to such traditional clients, it also includes partners with whom Blake Leath, Leath Group or Leath Learning personnel have collaborated. This is a partial representation, not intended to be complete. Since 1992, Blake Leath has benefited from the contributions of approximately eighty highly-talented colleagues who have been privileged to work with literally hundreds of organizations. The sampling herein represents a broad spectrum of our combined work: a large number of the organizations represent (1) those for whom we have designed or delivered full-scale solutions, a small number of them represent (2) think tank peers, and some of them represent (3) public seminar attendees, (4) individual coachees, (5) teambuilding and/or strategic planning session participants, (6) war games participants, (7) large conference attendees, or (8) otherwise general users of the services described in the service box above. As is the nature of business, a portion of the aforementioned organizations no longer exist or have been acquired. We have used the logos that were current at the time of our engagements.
